- Tamil
- English

Projects

Eyenet Website Redesign, <i>Modern Website Redesign for a Fashion Designing Institute</i>  Role: UI/UX Designer Web Developer	09/2025 – 10/2025
--	-------------------

Eyenet, a fashion designing institute offering creative and technical courses, approached me to modernize their outdated website. I redesigned the entire site with a clean, user-friendly layout that enhances course visibility and reflects the institute’s creative identity. The final design improved navigation, visual appeal, and overall user experience across all key pages.

Mediminder, <i>Conceptual Project</i> Mobile App Design for Timely Medication Management Role: UI/UX Designer Designed a user-friendly mobile application in Figma to help users manage and track their medication schedules. The app addresses the common issue of forgetting to take medicines on time by providing an intuitive interface with smart reminders and easy-to-use features. Focused on simplicity, accessibility, and a clean visual design to ensure a smooth user experience for all age groups.	06/2025 – 07/2025
--	-------------------

Certificates

• Foundations of user experience and design thinking	• Digital Skills: User Experience by Accenture	• Front-End Webdevelopment by Reliance Foundation&skilling academy
