- HTML
- CSS
- Javascript
- React
- Node
- Express
- MangoDB
- MUI
- Bootstrap
- Excel
- GIT
- Python

## Projects

- Creating a Responsive Dynamic Websites on Frontend**
  - Develop a Responsive Website:  
"Developed a fully responsive website using HTML, CSS, and JavaScript, ensuring compatibility across multiple devices and browsers."
  - Implement User-Friendly Interface:  
"Designed and implemented a user-centric, interactive UI using React.js, ensuring seamless user experiences with fast load times and smooth transitions."
  - Optimized Website Performance:  
"Optimized website performance by reducing load times and improving page speed through lazy loading, image optimization, and code minification."
  - Dynamic Web Application:  
"Built dynamic, single-page applications (SPAs) with React.js, integrating third-party APIs to provide real-time data and interactive features."
  - Cross-Browser Compatibility:

"Ensured cross-browser compatibility by writing clean, semantic code and testing functionality on all major browsers (Chrome, Firefox, Safari, Edge)."

## Achievements & Awards

- I completed a project for my collage's library management system. During my Bsc Program, i undertook a two-day workshop in Edureka Learning Center.where i not only acquried valuable skills but also successfully completed a (Udemy) Digitel marketing course and i have the Certificate also.
