OBJECTIVE

Seeking an opportunity in a dynamic organization to apply my technical skills, problem-solving abilities, and passion for learning, while continuously improving and contributing to successful project outcomes.

EDUCATION

2021-2024 :

The American College

B.sc Data Science

8.3cgpa

2024- 2026 :

The American College

Msc Datascience

8.8 cgpa

PROJECT

Diabetic prediction using machine learning :

Taken dataset from kaggle and checked wheather the person is having diabetic or not through graphical user interface

Climate change predictions using machine learning :

Taken dataset from kaggle and analysed how will the climate change further and which algorithm have given the highest accuracy

Crop disease prediction using machine learning :

Using the synthetic dataset predicted the disease and suitable medicine that is suitable to treat the crop disease using graphical user interface

LANGUAGES

English Telungu Tamil

INTERESTS

Playing musical instruments to enhance creativity Listening to music for relaxation and inspirarion
